

Proboat Standard Load Rated St St Safety Bow Shackles

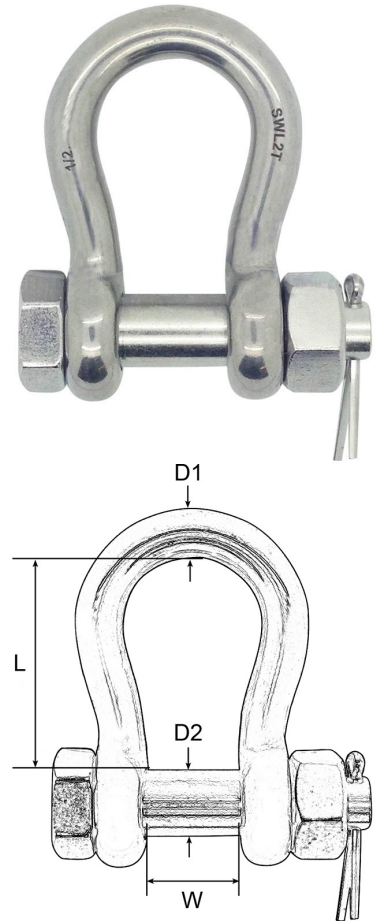

Standard Load Rated St St Safety Bow Shackles, c/w safety nut & pin.

Load rated stainless steel shackles featuring a smaller jaw width and larger diameter pin making them size for size stronger than standard shackles. Manufactured from AISI 316 stainless offering excellent corrosion resistance, especially in marine environments. Ideal for secure lifting and mooring applications.

- 316 stainless steel

Certification | CE Marking

- Each shackle is marked with: CE (body size 3/8" & above) WLL | Size
- Certificate available on request
- WLL = 4:1 safety factor of the break load
